

ADVANCED POWDER HANDLING SOLUTIONS
for food industry and bakeries

Lifting frame LF1000

for safe handling of FIBCs(Bigbags)

POWDER
TECHNIC

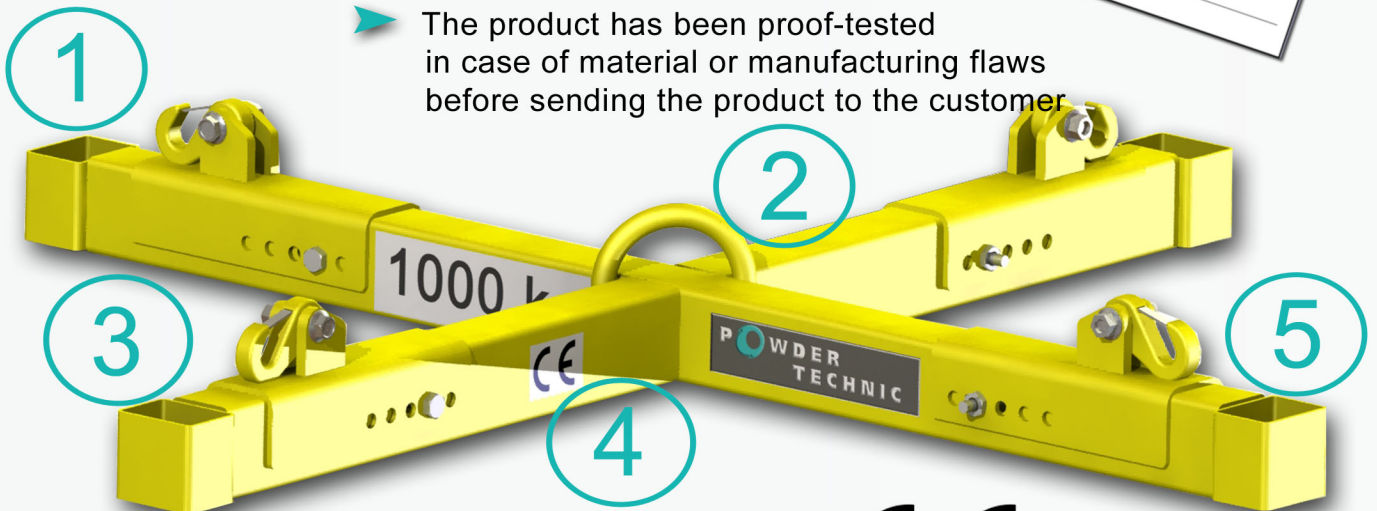

Features and benefits

1. Robust steel frame

- ▶ Heavy-duty, 80 x 60 mm structural steel tube frame guarantees that the product is safe to use

2. Proof-tested according to regulations

- ▶ The product has been proof-tested in case of material or manufacturing flaws before sending the product to the customer

3. Safety hooks

- ▶ Safety hooks with latches (mandatory in lifting devices according to EU safety regulations) prevent the lifting strap from slipping off in any situation
- ▶ Suitable for all kinds of FIBCs with 4 lifting loops

4. Fulfils EU safety regulations

- ▶ The product fulfils all EU safety requirements. The product has a CE marking to declare that it meets harmonised European standards.

5. Space saving suspension of the lifting loops

- ▶ An innovative suspension solution for the FIBC's lifting loops saves space compared to conventional solutions -> you can handle larger FIBCs in low spaces.

ADVANCED POWDER HANDLING SOLUTIONS

for food industry and bakeries

Technical specifications

Manufacturer: Powder Technic Ltd

Suitability: FIBCs with 4 lifting straps

Lifting Frame LF1000

Lifting capacity: 1000 kg

Construction material:

80 x 60 mm structural steel tube

Surface finishing: epoxy paint coating

Other specifications:

Safety hooks with latches

Proof-tested

Certificate of proof-testing

CE-marking

SWL -marking (safe working load)

Safety and operation instructions

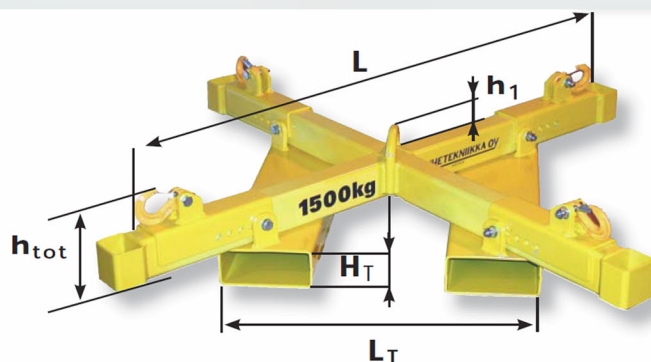

Lifting Frame LF1000F

Lifting capacity: 1000 kg

Construction material: structural steel, epoxy paint coating

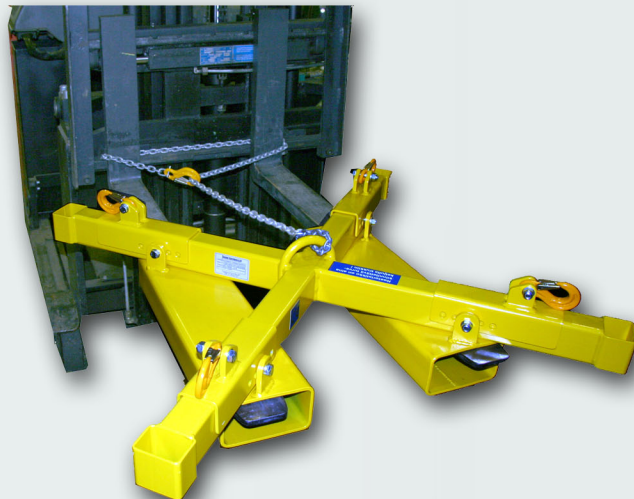

Handling with a fork-lift

Dimensions

Type	max. load	L (mm)	L _T	H _T	h _{tot}	h ₁
LF1000	1000 kg	1200			120	40
LF1500	1500 kg	1200			120	40
LF1000F	1000 kg	1200	610	80	120	40
LF1500F	1500 kg	1200	610	80	120	40

Applications

LIFTING FRAME LF 1000 F for fork-lifts

Lifting frame LF1000 equipped with box beams for easy handling with a fork-lift. The LF1000 F has a safety chain to prevent slipping of the Lifting frame.

SUITABLE FOR LOW SPACES

The innovative suspension solution for the FIBC's lifting straps saves space.
