

**POWDER TECHNIC**

# Screw conveyors

Stainless steel

## KEY FEATURES

Dosing/conveyor capacities: 10-50,000 kg/h

Lengths: 0.5-10 m

Incline: 0-90°

Structural materials: Stainless steel

Progressive spiral pitches

Pressurised seal housings in the axle lead-throughs  
Dosing/conveying to one or more points  
Easy to use touch screen

## APPLICATIONS:

Powder dosing and conveying

Dosing with a screw conveyor is done from a BIG-BAG into a container, mixing kettle, intermediate scale, etc.

Precise dosing of minute raw materials is done using a screw conveyor.
